SUMMARY

Dedicated 3rd-year Computer Science Engineering student at **JIS University** with a strong academic foundation (~9.5 SGPA). Proficient in **Java**, with a focused specialization in **Advanced Data Structures and Algorithms**, and experienced in low-level programming with **C and C++**. Complemented by hands-on experience in **Frontend Development (HTML, CSS, JavaScript) & Basic Android Development** to build responsive user interfaces. Passionate about leveraging technical talks and mentorship to build scalable, high-impact software solutions. A proactive learner with good **technical communication** skills.

SKILLS

- Java programming and data structures
- C programming proficiency
- C++ fundamentals
- Technical communication
- Team collaboration
- Problem solving

PROJECTS

- **SignFlux:** SignFlux is a real-time, vision-based assistive technology web application designed to bridge the communication gap between sign language users and the non-signing community.
- **Canteen Management System (CMS):** A CMS (Canteen Management System) Android Application is a mobile platform designed to digitize college canteen.
- **Simon Game :** The Simon game is a classic, short-term electronic memory skill game.

EDUCATION AND TRAINING

Expected in 2028

B.Tech: Computer Science & Engineering
JIS UNIVERSITY - Agarpara, Kolkata, 700109
• 9+ CGPA

05/2024

Higher Secondary: Science (Physics, Chemistry, Mathematics, Biology)
Daharkundu Sree Ramkrishna High School - Daharkundu, Arambagh, Hooghly
• 80% Marks

06/2022

Madhyamik
Daharkundu Sree Ramkrishna High School - Daharkundu, Arambagh, Hooghly
• 78% Marks
